

FREE · YOUR FIRST AI EMPLOYEE

YOUR FREE EXECUTIVE ASSISTANT.

Works in the AI chat you already use. It drafts. You send.

It sorts your inbox, drafts your replies, preps your meetings and plans your week. For owners and the people who run the office: anyone whose day gets eaten by email, follow-ups and small stuff.

THREE STEPS

1

Copy the prompt from the page below with one click, and paste it into a new chat.

2

Answer five questions. Short answers are fine. It asks one at a time.

3

Save the note it writes about your work (your phone's notes app is fine). Paste it in first whenever you start a new chat.

GET THE PROMPT

homelandresponsesolutions.com/ai-employee

Press Copy the prompt. The whole thing is copied in one click.

Tip: in Claude, connect Gmail and Google Calendar (it's free) and your assistant reads them itself.

THE CATCH

A chat forgets you.

Tomorrow your assistant starts from zero unless you paste that note back in, and it never sees last week or what got done. Fine for trying it. It gets old fast if you use it every day.

FREE VS. THE BUSINESS PROJECT

	Free	The Business Project
Inbox, replies, meeting prep, weekly plan	Yes	Yes
Knows your business in a new chat	You paste a short note each time	Starts from your business notes
AI employees	One	Three, plus how to add more
Friday report and money snapshot	No	Yes
Price	Free	\$79, once

WHEN YOU WANT IT TO REMEMBER

The Business Project

One plain file about your business that your AI reads every time, so every new chat starts from your notes, not from zero. Two more AI employees come with it. No software. No commands. Works on free Claude and ChatGPT.

\$79 one-time · 14-day refund policy
